

W.G.Fritz Construction

Partners in Quality for 25 years

Single Source Responsibility
Design Build
Value Engineering

Compare W.G. Fritz by the quality of our work. All your construction needs: **ALL IMPROVED**

What our clients are **SAYING.**

"The project consisted of two (2) subsidiary companies moving onto the Cypress Corporate Campus in San Jose at a TI cost of over \$500,000.00. As projects like this go, there are always small surprises and unforeseen issues that arise. I was impressed in how we were able to resolve these issues quickly and fairly and the project moved to completion with the assistance of W.G. Fritz Construction's able personnel. When we moved in on schedule, and R&D work picked up right where we left off, I looked like a hero. I want to thank W.G. Fritz Construction for their professional conduct and attitude and would rec-

ommend them for all future work."

- Clint Carroll, Prod. Manager, Silicon Light Machines

"The Contractor performed the work ahead of schedule with excellent workmanship."

- Mario Perez, Project Engineer, Dept. of the Navy

"Our residents have called to tell us how much they appreciate the work. I am kept informed every step of the way and quickly on unexpected problems. The W.G. Fritz crew is very pleasant and extremely professional."

-Susan Edwards, Mgr, Chateau Cupertino

"I have received nothing but positive feedback from everyone here about how 'invisible' the overall job was to our employees."

-Senior facilities Engineer, Intel

"The project remained on schedule due to W.G. Fritz' personal commitment and responsibility to the project. Impressive performance. Valued member of our project teams."

-Paolo Pueliu, Kercheval, Engineers, PG&E Salinas

"Over the past years on many projects. I found Bill Fritz to be a good manager, and also fair and honest. He is always willing to step up to a

our clients.

MOVEMENTS, RENOVATIONS & INTERIORS.

challenge and produce high quality work. I appreciate his technical skill, initiative, and dedication.”

-Ron Young, Architect

“ I have known Mr. Bill Fritz for many years. He has completed numerous projects for Acer, including increasing production capacity for our new product line by 33%, and building a new tech support computer room.”

-Andy Aguilar, Acer America Corporation

“We hired W.G. Fritz Construction to design-build our new restaurant. They provided supervision, architec-

tural, structural, electrical and mechanical drawings and pulled permits. They assisted on color selection, costs and coordinated with our interior designer the placement of furnishings. They provided all phases from inception to completion in a very professional manner. This is our third Cactus Fresh Mexican Grill and we are extremely happy with the relationship that we have formed with W.G. Fritz Construction. We look forward to working with them on our next project.”

-Victor Alvarez, Owner

“Adjusted installation to most unforeseen conditions, solved problems as they arose, eliminating delay. Good craftsmanship, kept site clean and picked up. Extremely cooperative, professional, and personable. A pleasant productive experience. Recommended.”

-The Ruess Group, Jim Ruess, President
